# MONTEBELLO FIRE DEPT

The City of Montebello's fee schedule gives a breakdown of all costs associated with city business. It is the result of thorough cost analysis and budget comparison; taking many hours to complete. The cost pertaining to the fire department begin on **page 4**, with the annual inspection fee chart appearing on **page 5** of the complete fee schedule (See QR Code).

Montebello Fire Dept charges a service fee for annual inspections of existing businesses and multi-family dwellings (R2 occupancy class). The charge is only for the inspection itself and the **cost does not change with the number of necessary corrections**. All property owners are given a free reinspection if there are violations on the initial report. **However, the second (and all subsequent) "non-compliant" re-inspection's will incur a fee. The final compliant re-inspection is always free.**
